WDR Technology

Smart PAN/TILT Camera

You can experience 360° panoramic view with this Pan/Tilt surveillance camera. And it supports One-button Sleeping Mode in case you do not need the camera shoot at some time. All you need to do is a click on the on-screen control of the APP.

2.4GHz & 5GHz Dual-Band WiFi Connection

It works with 2.4/5 GHz Dual-Band Wireless network, the 2.4GHz band gives you longer cover range, whereas the 5GHz band offers more channels that are less likely to be interfered.

Motion Detection and Real-time Activity Alerts

Motion & sound detection with real-time alert notifications sent to you, intelligent human recognition and alarm push when there is human motion.

Enhanced Night Vision

Built-in 13 infrared LEDs automatically turns on in low light conditions, allowing you to see clearly in the dark up to 33 feet. It gives your house a full protection no matter day or night.

Free Cloud Service SIMPLE SMART SECURE

8-hour free cloud service is provided, which means you can save all alert captures and video clips of the last 8 hours to the Foscam Cloud without capacity limitation.
